Now, you can create pages in LMS that can be linked to the login page footer. This is useful for creating custom pages such as 'Terms and Conditions' and 'Privacy policy' to meet [GDPR](#) (General Data Protection Regulation) requirements.

To create a new page, go to 'Account & Settings' and 'Pages' left navigation link.

The screenshot displays the LMS interface. On the left, the 'Account & Settings' menu is expanded, and the 'Pages' option is highlighted with a red arrow. The main content area is titled 'Pages' and features a green '+ Add New' button, also highlighted with a red arrow. Below the button is a search filter with a magnifying glass icon and the text 'Filter'. A table with columns 'Title', 'Author', and 'Date Added' is shown, but it is currently empty. At the bottom of the table area, it says 'Showing 0 to 0 of 0 entries'.

Enter a 'Title' and add your content. Click 'Save' button to save the page. You can edit or delete your page anytime.

Note:

You can add as many pages to your site as you wish, however, keep in mind that sites with a large amount of pages may take longer to load.
