In this tutorial, we will show you how to create an online course in [Enterprise LMS](#) product offering.

Sign in to your LMS instance to see the "**Create a Course**" link on the left navigation based on the roles and permission assigned to you by your administrator.

Step 1

This brings up Add Course wizard as shown below.

Start with your Course Title. This should be catchy to attract your students. For example, 'How to be a Mango Seller'.

Course Title:

 46

Now, you are presented with an option to type a course subtitle which further emphasizes the purpose of your course. For example, 'Sell Mangoes in 3 easy steps'.

Course Subtitle:

Sell Mangoes in 3 easy steps

32

Upload a relevant image for this course, or you can pick an image from BrainCert Library.

Course Image:

Choose File No file chosen

Or

Choose from BrainCert library

Set the instructional level of the material in your course.

Instructional level:

Beginner Intermediate Advanced All Levels

Type the relevant text in the **About the course** and **About the instructor** text editor area.

Step 2

You can add link from YouTube or Vimeo as promotional video for your course. You can also pick and choose uploaded videos from your content library.

Promotional Video:

<https://www.youtube.com/watch?v=uFBTybfaF> (Add link from YouTube or Vimeo)

Or [choose from your library](#)

Add few pointers as course highlights to attract new students.

Course Highlights:

How to Gift Mangoes online 94

Alphonso Mango Recipes 98

Good farming techniques 97

Certified Organic 103

Worldwide shipping details 94

Select an appropriate category and language for this course.

? **Category:** Health and Benefits

? **Language:** English (US)

Type comma separated keywords to further optimize showing it in search results.

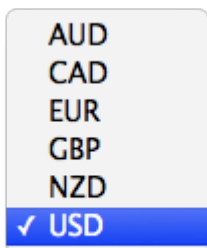

? **Course Keywords:**
mango × order × online ×

Step 3

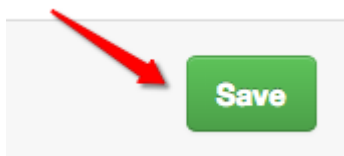

Choose options **Free** or **Paid** to deliver your courses online. When you select "Paid", you will be presented with the currency options to receive payment.

? **Currency :** USD \$

For more info on multiple currency support, check this [blog post](#).

Finally, click the **Save** option under STEP 3 to save your course.

You can manage all your courses in courses page.
